

Si::Event::Window

```
classDiagram
    class Si_Event_WindowMove["Si::Event::WindowMove"]
    class Si_Event_Window["Si::Event::Window"]
    Si_Event_WindowMove --|> Si_Event_Window
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'Si::Event::WindowMove'. A blue arrow points vertically upwards from this box to a white box labeled 'Si::Event::Window' at the top. This represents that 'Si::Event::WindowMove' inherits from 'Si::Event::Window'.
